

## PRESS RELEASE

H.E. SERVICES, the largest nationwide hirer of earthmoving plant have placed an order for 10 Hydrema 912D Dump trucks with Hydrema (UK) Ltd to add to it's existing fleet of Hydremas.

H.E. SERVICES have owned and operated Hydrema Dump Trucks for over 15 years and own the largest fleet of machines in the country.

Tim Wadsworth, Hydrema UK's Sales Director says "H.E.'s customers expect the best equipment and the Hydrema is well known for its go anywhere qualities and low ground pressure.

In this age of zero harm the D series continues to offer the operator exceptional stability, the very lowest noise levels on the market and a spacious comfortable working environment".

Peter Durey the Managing Director of H.E. SERVICES says" We always evaluate the machines we purchase, as well as listening to our customers requirements, this made the decision easy for us for choosing Hydrema Dumptrucks, with their fully enclosed air-conditioned cabs which have good front and side visibility and the high quality reversing cameras, makes them a very safe machine for both the Operator and Site Personnel "
